PEOPLE

Feedback from interim evaluation

Johanna Jokinen, coordinator

Overall impression

- * The overall satisfaction with the partnership is very high, 80 % of respondents giving a rating of 5. Only one partner considered the success of the partnership as 3 (“adequate”).
- * Partners have similar goals, similar activities
- * The partnership is progressing according to plan

Comments about the partnership

- * Atmosphere:

”... we form a very good group of people who like each other.”

- * Difficulty of comparing results: partner organizations differ in size, context, target groups etc.

Suggestions:

- * Clearer definitions for tasks
- * Measuring the quality of the outcomes, specifically the implementation of the new pedagogy.
- * A system of quality monitoring and evaluation
- * Facilities: workshops should be done in the computer lab
- * Timing: a discussion of time allotted to working and to the socio-cultural interaction
- * Student involvement: student interaction either face-to-face during mobilities or online
