Course Evaluation Grid

Course name: ICT for SE

Search tools:	Google
Store/Archive tools:	Blogs, Youtube (to store vídeos), Picasa (to store photos)
Editing tools ("Add value"):	Blogs (students wrote texts)
Publish/Agregation tools:	Blogs (posts had a combination of text and images)
Comunication tools:	Email, Face-to-face communication

Remarks:

Students worked collaboratively on their PLEs most of their time, some time during the lesson was devoted to teacher-centered instructions on how to use a particular tool. Even though there were a few cases of students' learning from each other, for future courses peer-learning aspect should be more emphasised.
